

usfcc 47 cfr part 64 dkt 98 170 and cg docket 04 208
fcc 05 55

i agree with the petition asking for no more
surcharges on customer's bills. there are so many
extras on the 2005 telephone bill, that it costs two
times as much for the taxes on the phone bill as for
the phone service itself. in addition the phone
service would not cost so much if the phone company
was prohibited from contributing to political
campaigns. telephone companies spend so much money
lobbying politicians to get the increasing fees they
get, all of that gets put on the poor customers who
want no increase in fees. this is dirty dealing - to
make customers pay for these political campaign
donations, parties, train rides, etc.

piling these horrendous extra charges by fcc fiat is
absolutely disgusting. End these taxes on phone bills -
they are out of control. libraries are getting enough
money - it is time to cut back on this tax on
telephone lines.
